CHANGE OF HOMES

Will Disqualify Two Public Works Board Members

PRESIDENT NOBLE AND SECRETARY FOWLER ONES

The Mayor Now Only Awaiting Legal Advice to Name Successors to Gentlemen.

TY LOOSES TWO CAPABLE OFFICERS.

By virtue of their moving outside the municipal limits for this city President Ed P. Noble and Secretary Saunders Fowler, of the board of public works, will doubtless have to tender their resignation as members of that body, because a person to be a public official of this place or any other place has to be a bona fide resident of the city. Mayor Yeiser yesterday stated that he did not think there was any doubt but what both gentlemen were disqualified from further service when they took up their residence outside the corporation and that he would select good and competent men as their successors.

The corporate limits of a city is the line dividing municipality from the county. To be a public officer-holder of Paducah one has to be a resident of the city. Of course anyone can do like Mayor Yeiser, have a town home and a country home, spending the summer at the latter place in Arcadia, but the mayor has always claimed the North Fourth street place as his permanent residence, and votes at the precinct including that street number, even if the time of the election happens to have his family at their suburban residence in Arcadia.

With Messrs. Noble and Fowler it is different. Both have built themselves residences just this side of Arcadia, in the county, the homes being beyond the corporate limits of the city. Mr. Fowler has already moved out to his new home, while Mr. Noble is awaiting completion of his, when he moves hereto from The Palmer, where he and wife make their abode at present. Both gentlemen will reside in their new homes the year round, the places not being summer homes, but permanent residences.

When spoken to on the subject yesterday Mayor Yeiser said that their removal disqualified them, but that he proposition had gone the way all matters do; been referred to the city solicitor for the latter to look up the law and make a written report on the matter from a legal standpoint. The chapter governing this city states that any person elected to an office by the people shall not only be an actor of the place, but "continue to reside in the city, otherwise they are disqualified." The board of public works is only an appointive body, chosen by the mayor and not elected by the people, but as those named by the people at the polls are always superior to those named by the mayor or public boards, it is but natural to resume that the appointive, or less important officials, would be more susceptible to the provisions than those designated by the people at large.

President Noble said that he had read over the charter and thought it required he, and Mr. Fowler to resign, as their homes between town and Arcadia were their permanent residences, therefore they were not residents of the place, neither did they intend to reside here.

Mayor Yeiser is looking over the law for good men to take their places, but has as yet made no selection. City Solicitor Campbell has gone over the law upon the question and will condense his report to writing on returning from Louisville and hand it in to the board at their next session.

Mr. Fowler takes a different view of the matter. Although while residing permanently outside of town, he claims he maintains his home inside the city, at the residence of his mother on Broadway between Seventh and Ninth streets.

When they hand in their resignations the board will have to undergo a re-organization by election of another president and secretary. The third member of the body is Mr. John G. Rinecliff, the wholesale liquor dealer of North Fourth, who resides on South Fourth street.

The board members are selected for a period of two years, and have been in office something like eighteen months now. Whoever is chosen to succeed Messrs. Noble and Fowler

will probably go in for the unexpired portion of their tenure, which is six months yet. Both the members have made most excellent officials and it was hoped they could remain in the body, but the laws and charter provisions will not permit of such while they reside outside of town.

FINGER NIPPED

MR. JESSE MOSS GOT SAME CAUGHT IN SOME MACHINERY.

Mr. George Finley Reports His Son Edward Is Doing Alright—Other Ailing People.

Mr. Jesse Moss yesterday got the finger against one of the machines at the basket factory in Mechanicsburg and came near cutting it off. It was dressed by Dr. Troutman. Mr. Moss is one of the foremen of the plant.

Much Better.

Dr. Dick Walker is improving at the railroad hospital from the severe attack of bilious fever that has kept him confined for the past week.

Caldwell Will Live.

The doctors report that Bud Caldwell, colored, will now live, he having pulled through the crucial stage of his ailment. He is the negro whose wife before Christmas pointed a revolver at him in fun and it went off. The bullet went all the way through, but Caldwell is recovering. When he is well enough to attend court there will be brought up the warrant against his wife charging her with the shooting. It has to be officially investigated before the officers accept the accidental theory.

Doing Alright.

Mr. George Finley, of Calvert City, was here yesterday and said his son Ed. was getting along alright. The latter is the former clerk for Henry Kamleiter's grocery on South Third street, and while hunting Christmas near Calvert City his gun went off and tore away his hand that was amputated two inches above the wrist as result.

Other Ailing.

Patrolman James Clark continues getting better at his home on Clements street in Mechanicsburg.

Mr. Pat Atkinson continues to recover from his attack of pneumonia.

IRON FURNACE

THE SUPERVISORS WILL PROBABLY MAKE IT PAY TAXES.

Has Laid Idle Ever Since Built, Except for Four Months, but Never Paid a Dollar Taxes.

It is probable that something may be done this year towards compelling the owners of the old iron furnace property on South Third street to pay taxes upon the plant, which has never paid a cent of taxes, either to the city or county, as long as anyone can remember. One member of the board of county supervisors yesterday said that he intended urging his body to assess the plant at its true value and then compel the owners to either pay the taxes or the plant will be put up and sold for the taxes due.

The plant was built here many years ago and has never paid taxes either to the city, county or state. Citizens donated ground and money to help push the plant along, but it was not until about five years ago that a fire was ever built in the furnaces, and then the outfit did not run but a few months when it went under and had to be sold. It has now been in the courts many times and has been the source of much litigation.

It probably has been favored more than any institution in the world as regards paying public taxes, as not a cent ever floated into the city treasury. Now the supervisors of both the city and county intend seeing about assessing the property and make the owners pay just like all other citizens.

President Roosevelt and wife Thursday evening held a levee at the white house in honor of the diplomatic crops and 2,000 people attended.

Japan will soon have a new cabinet. The changes are to be made with full consent of the emperor who has to an extent suggested a change.

LICENSE LAW

ABOUT SEVENTY-FIVE CHANGES MADE IN IT BY THE COMMITTEE.

Bill Provides That the Mayor Shall Revoke the License of All Law Violators.

Last night at the joint gathering of the council and aldermen as a committee of the whole, those boards finished going over the ordinance which prescribes the license that shall be paid this year by every profession and business in Paducah. In the bill there are enumerated just 173 different kinds of business, that have to pay licenses, and of this number changes were made in about half, as compared with last year. Of the alterations made some licenses were lowered, while the major portion of them were increased.

After the two bodies as a committee of the whole finished making the alterations they desired, Mayor Yeiser then called the council into special session by itself and that board gave first adoption to the bill, then suspended the rules and gave the final passage. This being all they were called into session for that board adjourned and the aldermen then gave two adoptions to the ordinance, thereby making it effective. Now this morning Mayor Yeiser will sign the bill which then prevails, and all people of the town will have to pay the licenses named.

In drawing up the new bill the boards make a change regarding the power of the mayor to revoke the license of anybody. The new ordinance prescribes that if affidavit is made to the mayor that anyone is violating any of the city laws, that the mayor shall then issue notice to the accused party to appear before him inside of twenty-four hours and show cause why he violated the municipal laws. If the excuse is not a good one, the ordinance says, the mayor "shall revoke the license." Another provision says that if anyone is fined in the police court for violating the laws, saloons or anyone, the mayor "shall" revoke the license.

The old ordinance stipulated that the mayor "may" take the license away, but this new one rigidly stipulates that "he shall."

TARIFF WAR NOT EXPECTED

Germany Would Have More to Lose Than United States in Fight.

Berlin, Jan. 5.—Germany has not yet decided definitely to declare a tariff war on the United States on March 1. The foreign office is scrutinizing the "concessions" which the United States has offered in the form of more lenient custom house practices, and is endeavoring to learn how far Germany can go in extending reciprocal advantages.

The request of the United States that these advantages embrace the full "favored nation" privileges enjoyed by the seven countries which have entered into treaties with the Fatherland strikes the kaiser's officials as a piece of delicious Yankee humor. However, the government and its industrial supporters are not disinclined to give America full "favored nation" rights, but the agrarian leaders of the Reichstag would never sanction such an arrangement, although it has just been made with Britain for another period of two years.

The kaiser's government is fully aware that President Roosevelt and Secretary Root are unable to move the senate in this matter or to go beyond the so-called concessions which have been offered. It realizes, too, that if the two countries should engage in a tariff war the United States would stand the punishment immeasurably better than the Fatherland. The prediction is, therefore, not unwarranted that Germany will conclude to throw up the sponge within the next ninety days and decide that the best arrangement it can make is preferable to war.

PILL BOX NUMBERER.

Mr. George Crumbaugh, Jr., Patented One at St. Louis.

Mr. George Crumbaugh, Jr., son of Captain George Crumbaugh, of the boat store, has invented a pill box labeller that numbers thousands of pill boxes an hour. He is chief electrician for the Paris Medicine company of St. Louis, and has applied for a patent to Washington authorities for his invention. He was here last week spending the holidays with his parents.

EMBEZZLEMENT

CHARGED AGAINST A RESIDENT OF GRAVES COUNTY.

A Caper Which Looks Like It Is Good for a Term in the Pen.

Yesterday afternoon Dick Kellough was arrested here, near Second and Jefferson streets, by Detective T. J. Moore, and taken to Mayfield on the 6:10 o'clock train and locked up on the charge of embezzling \$573 from his partner, J. W. Pee. His examining trial comes up today there, Sleuth Moore returned this morning at 1:40 o'clock.

Kellough & Pee had been doing some trading and buying together, they living near Lowes Cross roads, in Graves county. They had over \$1,000 in the bank together, half belonging to each. Kellough went ahead and checked out all of his and then \$573 belonging to Pee. He promised to pay his partner, and said he was going to sell his farm today to his brother, Dr. Swayne Kellough, of near the Cross Roads. Pee yesterday learned that Kellough sold the place the day before to his brother for \$1,000 cash, as he owed his brother \$410. After selling his stock and other goods Kellough then came here yesterday and Pee went to Mayfield and got a warrant, charging him with embezzling the \$573. Marshal Charles McNutt, of that place, telephoned to Chief Collins, who detailed Detective Moore to locate Kellough, who had come here. The sleuth did the work as stated.

Kellough did not deny checking out his partner's money, but claimed he did not have any of the coin he got for his farm. He contended he had turned this over to his nephew, Earl Sellers, who came here with him.

Kellough brought a calf here with him to ship to his sister-in-law in Tennessee, and the officers believe he was going also, and send his horse and buggy back to Lowes Cross roads by the boy.

Cannot Find Husband.

The Mayfield papers announce that Mrs. Mary Johnson has returned there after making a tour through West Kentucky looking for her husband, P. H. Johnson, the sewing machine mender, but that she failed to locate him. She now says she believes he has been foully dealt with and offers a reward for anything leading to definite information. Johnson disappeared November 22nd.

Mentally Deranged.

Early yesterday morning John Gabriel, a 25-year-old German harnessmaker, was arrested by Driver John Austin, of the patrol wagon, at the Kettler house on South Third, and locked up, on account of his mental derangement. He has been in the asylums often before, and came here one month since from St. Louis.

REPAIR ROOF.

Contractor Dick Davis Will Start This Right Away.

Contractor Dick Davis yesterday stated that only about forty squares of slate were broken upon the roof of the new market house, but that he would immediately commence repairing the place and make the roof so it will not leak. He will charge the city up will all the slate that proves to have been broken through no fault of the contractor, while as to the other Mr. Davis stands for this himself, he having but the roof on the building.

The roof leaks very bad, water coming in at many points along same, but it will take only a day or two to repair it fully.

DOSED HARD.

John Mix Got \$50 and Twenty Days in Jail.

Yesterday morning in the police court John Mix was fined \$50 and sent to jail for twenty days for carrying concealed weapons. He was found with the gun on him at Jim Sherrill's saloon, on North Fourth street, and at the time was flourishing it pretty promiscuously, running all out of the grogshops on that street. Billy Ferner and Mrs. Sweeney were fined \$1 and costs for being drunk.

There was continued until next Monday the case charging J. T. Norfleet with forgery.

The Chicago board of trade is asking for a receiver for the Odell commission company of Cincinnati.

The steamer Frank, a small craft which ran in the Mississippi to carry a theatrical company from one town to another, sank at O'Brien, near Cairo, Tuesday in the storm. Seventeen people were on board but all escaped.

WATER PLANTS

INDIANA MAKES FIRE PROTECTION GREAT DEAL CHEAPER.

Statistics Show That in Cities Owning Plants Cost Per Fire Hydrant Is Only \$12.25.

Richmond, Ind., Jan. 5.—On an average, cities in Indiana that have private water plants are paying over four times as much for fire protection as are cities that own their own waterworks plants. This situation is shown in a report of State Statistician Stubbs, in which municipal problems are shown in statistical form.

There are eight-four cities in Indiana. Of this number, 49 have municipal plants, 33 have private plants and 2 have none. Out of the forty-nine towns that have municipal plants, seven must be left out of the reckoning because in the statistical returns given their heating and lighting figures are also included. Nine more must be excluded because the number of hydrants is not given, and, manifestly, none of these sixteen can be counted on in trying to ascertain the cost per plants and those that have municipal plants.

Of the thirty-three left that have municipal plants, the total cost of maintenance last year was \$46,415.78. The total receipts from private consumers were \$37,534.31. The cost of operating, therefore, exceeded the receipts, \$7,881.47. But in these municipal plant cities, the city did not have to pay out so much per hydrant for fire protection as do the cities that have private companies. Therefore, the cost of hydrants in all these cities was \$71,864.47. There are 3866 hydrants in Indiana. The cost per hydrant in cities that have municipal ownership is, therefore, only \$12.25 per hydrant per year.

Of the thirty-three cities that have private plants two are omitted because of complications in the figures. The thirty-one remaining paid \$338,422.30 for fire protection hydrants. There were 6836 hydrants, so that the cost per hydrant per year was \$49.22.

The total amount of money spent for water in Indiana cities last year was \$1,131,106.28, making the amount for each inhabitant 45 cents per year.

Many gorgeous and attractive costumes were worn, the grand march starting at 9 o'clock. An hour later the guests unmasked and an informal reception was held, during which time the honored visitors were presented. At 11 o'clock the german was started and continued until long after midnight.

Mr. Peter Bechenbach, of this city, intended going to Fulton next Wednesday evening and installing the new encampment for that place, but the brethren there wrote him the lodge room could not be gotten that night, therefore another evening would have to be chosen. The Beavers have never yet selected their lodge room, but instructed the trustees last night to look around and at the session next Friday evening at the Elks hall, recommend some assembly place as a room for their gatherings to be held in.

The lodge cards, showing that the members have all paid their dues, serve as identification cards also, as upon each is a photograph of the affiliate to whom it belongs.

Red Men Elected.

Last evening at their meeting in their hall on North Fourth street the Red men's lodge elected officers who are to serve for the ensuing six months, with the exception of secretary and treasurer, who serve for one year. The newly elected officials will be installed next Friday evening at which time the great sachem will name his appointive officers. Those elected last night were as follows: Eugene Graves, sachem; David Cross, prophet; Clarence Householder, senior sagamore; Robert B. Richardson, junior sagamore; Charles F. Wistach, chief of records; A. J. Smith, keeper of wampum; William E. Buck, collector of wampum; Al M. Foreman, trustee for eight months; Dr. W. J. Bass, medicine man; George O. Ingram, representative to the Great Council of Kentucky which meets in June at Frankfort.

The new flooring for the lodge room is about finished, it being damaged by the fire several weeks ago. The paintings upon the wall will have to be gone over again, while the lodge paraphernalia will be sent back to Lilly at Columbus, O., and that which cannot be put in good condition will be replaced with new pieces. It got all smoke saturated and filled with water during the fire. The meeting last night was one of the most enthusiastic and interesting ever held by the order, as nearly 100 members were there.

MARBLE BUSINESS

WILLIAM LYDON BUYS
INTEREST IN MARBLE
YARD.

W. E. Cave Preparing to Build
Another Handsome Residence—
World of Commerce.

Mr. William Lydon, deputy sheriff for four years past, under former sheriff Lee Potter, has entered the tombstone business, buying an interest in the marble yard of Capt. J. E. Williamson, of North Third between Broadway and Jefferson streets. The firm will be known as Williamson & Co. The deal was closed yesterday morning.

Mr. Lydon is one of the most experienced marble and stone men in this section of the country, having been connected with the business for twenty years past, and worked through the different departments of the business, up to the top rung. He is a progressive and unusually energetic man and the firm acquires a valued associate in his connection. He was connected with this concern for years, the first of 1902 when he became deputy under the outgoing sheriff who went out of office the first of this week.

New Residence.

Rev. W. E. Cave yesterday morning awarded to Contractor Gus Lockwood the contract for another handsome brick residence that will be erected upon the vacant plot of ground existing in the row of elegant places the divine erected on Madison between Eighth and Ninth streets. The new building will be brick, two stories in height and cost about \$2,600. The ground for the foundation will be broken this morning, and everything pushed forward as long as the weather will permit.

Building Houses.

Contractor C. H. Chamblin has returned to the city after a several months absence in Cairo and Charleston, Mo., constructing several large and substantial structures there. He has big contracts at each place and has not yet finished the work, but came back to be present and take his seat in the aldermanic board Thursday night when the new incoming body came into existence.

Preparing to Move.

Hon. John K. Hendrick expects to commence moving his family from Smithland to this city sometime next week, or the week following at the outside, that is if the occupant of the home he bought there moves out right away. He purchased the Maxwell homestead on Broadway between Seventh and Ninth streets several weeks ago.

Handsome Sign.

Yesterday the handsome sign for the Paducah Light & Traction company was put up over the front of the building at 406 Broadway, where the company is now preparing to move its offices from South Fourth street. The sign is an electric one, the words being spelled with electric globes lighted. It is a very handsome affair and came here from Chicago. The company expects to get into the new quarters by the middle of this month.

Heavy Business.

The business of the Mergenthaler-Linotype factory in Mechanicsburg continues growing rapidly, and the charge extra forces are being put on the day Manager Meyers, who in another column of this issue is advertising for fifty more girls to help in the work. He is turning out many thousands of baskets hourly at the plant.

VENEZUELA MUST RECOGNIZE TAIGNY

First Consideration Now With
France—Chief Gives Him a
Promotion.

Paris, Jan. 5.—The Foreign Office says the Venezuelan question has undergone no material change. France continues to rely on her understanding with the United States, whereby efforts are proceeding to adjust the controversy.

In the meantime, the government has given a distinct mark of confidence in M. Taigny, promoting him from the rank of second secretary to first secretary of legation.

The officials here recognize the annoyance to which M. Taigny has been subjected, and they say that under ordinary conditions he would be withdrawn as a measure of protest. But the Venezuelan situation is considered to be so abnormal that M. Taigny remains at Caracas chiefly to give official protection to the large French interests in Venezuela.

A renewal of the recognition of M. Taigny's official status by Venezuela continues to be an indispensable condition of the adjustment of the questions in dispute between France and that republic. M. Wiener, the French minister to Venezuela, remains in Paris on leave. His return to his post might afford a possible solution of the difficulties, but no consideration has been yet given to such a move as the French government insists on the Taigny incident must be adjusted before action is taken.

SUFFERED AGONIES FOR FOUR YEARS

Whole Foot Nothing But Proud Flesh—
Tried Different Physicians and
All Kinds of Ointments—Could
Walk Only With Crutches—Ohio
Man Says:

"CUTICURA REMEDIES THE BEST ON EARTH"

"In the year 1899 the side of my right foot was cut off from the little toe down to the heel, and the physician who had charge of me was trying to sew up the side of my foot, but with no success. When he found out that wouldn't work, he began trying to heal the wound with all kinds of ointment, until at last my whole foot and way up above my calf was nothing but proud flesh. I suffered untold agonies for four years, and tried different physicians and all kinds of ointments. I could walk only with crutches. It is sixteen months ago since I began using Cuticura Soap and Ointment for my limb and foot. The first two months the Cuticura Remedies did not seem to work, but I kept on using them both. In two weeks afterwards I saw a change in my limb. Then I began using Cuticura Soap and Ointment often during the day and kept it up for seven months, when my limb was healed up just the same as if I never had trouble.

"It is eight months now since I stopped using Cuticura Remedies, the best on God's earth. I am working at the present day, after five years of suffering. The cost of Cuticura Ointment and Soap was only \$6; but the doctors' bills were more like \$600. You can publish my name and refer any one to write to me about Cuticura Remedies. I will answer all letters if postage is enclosed. John M. Lloyd, 718 S. Arch Ave., Alliance, Ohio, June 27, 1905."

BURY TODAY.

Remains of Mr. Mack Logue to Be
Consigned to the Grave.

This afternoon at 2:30 o'clock the funeral services over the remains of the late Mr. Mack Logue will take place at his residence, on Sixth and Trimble streets. The interment will be at Oak Grove cemetery.

Yesterday morning at 9 o'clock Coroner Frank Eaker held an inquest over the remains, this being necessary on account of the deceased having expired without the attendance of a physician. The inquest returned a verdict that Mr. Logue came to his death from apoplexy instead of heart trouble.

The Christian Endeavor and Sunday school services will be conducted at the regular hours.

Easy Way to Make Money.

Wife—I have made \$50 this afternoon.

Husband—Phew!
"You paid only \$100 for that old piano, didn't you?"

"Yes."

"Well, I have sold it for \$150."

"Gracious me! What are you going to do with the money?"

"There isn't any money."

"Eh?"

"I sold it to a dealer. He gives me a new piano for \$200 and allows me \$150 for the old one. If you'd stay at home and let me go to your office and attend to your business you'd soon be rich. Just think! Fifty dollars a day is something over \$15,000 a year."—Stray Stories.

WANTED TO KNOW.

She—I don't understand this wireless telegraphy.

He—It is very easy. They just send messages through the air, instead of over the wires.

She—I know; but how do they attach the air to the poles?—Chicago Journal.

Unconcerned.

Said the pheasant to the rabbits, "I'm amazed at your bad habits, Don't you know it's very rude to sit and stare?"

And the look the haughty pheasant turned on them was far from pleasant. But neither of the rabbits turned a hair's life.

Home Thrust.

Knicker—Why does a novelist always dress his heroine in "some clinging white stuff?"

Mrs. Knicker—Because a man expects a woman to stick to one dress forever. Why, yes, Henry, I could get a new one for \$50.—N. Y. Sun.

Slightly Confused.

"Poverty," said the cynical philosopher, "is no disgrace. On the contrary, it may be an honor."

"Yes," answered Mr. Dustin Stax; "I feel that way about it. But my tastes are so expensive I can't afford to be poor."—Washington Star.

Wanted Only Her Own.

Mrs. De Fashion—at a children's party—Marie!

Nurse Girl—Yes, ma'am.

Mrs. De Fashion—It's time for us to go home. Which of these children is mine?—N. Y. Weekly.

Proof Positive.

The Male Idiot—But how can I be sure that you love me?

The Female Ditto—Remember that I have had many chances to marry handsome men, clever men and interesting men—and yet I accepted you!—Cleveland Leader.

Misunderstood.

"Do you ever read a paper at your club?" asks the visitor.

"No. Every time I go to the reading room I find that the papers have been grabbed by the usual bunch of habitues who sit around that room all the time."—Judge.

A Busy Wife.

Bacon—My wife is very erratic. One day she is bursting into tears and the next day she is bursting into laughter.

Egbert—She really must be kept pretty busy bursting.—Yonkers Statesman.

The Post-Card Fiend.

"I fear she won't enjoy herself in Heaven."

"Why not?"

"I don't believe you can send souvenir postal cards from there."—Pittsburg Post.

Its Peculiarity.

"How did you ever come into possession of such a cheap-looking umbrella as that?"

"Why, I got this umbrella in a very peculiar way—I bought it."—Judge.

Losing Strength.

"An' how's yer wife, Pat?"

"Sure, she do be awful sick."

"Is ut dangerous she is?"

"No, she's too weak t' be dangerous anny more!"—Cleveland Leader.

THE REGISTER

PUBLISHED BY THE REGISTER-NEWSPAPER CO. (Incorporated)

Register Building, 523 Broadway. JAMES E. WILHELM, President. JOHN WILHELM, Treasurer. ROBERT S. WILHELM, Secretary.

Entered at the postoffice of Paducah, Ky., as second-class mail matter. One Year \$5.00 Six Months 2.50 Three Months 1.25 One Week .10

Anyone failing to receive this paper regularly should report the matter to The Register office at once. Telephone Cumberland 318.

Saturday Morning, Jan. 6, 1906.

The Sun's Creed. We did not know until reading the Sun yesterday that it was the general council of Paducah. That paper holds the mayor's annual message up for criticism and says "Give us time" for the improvements recommended, and "We are progressive, Mr. Mayor, and will do everything in time. All we ask is, don't try to muddy the waters."

If Paducah is to be governed along the ideas heretofore expressed by the Sun, than the public may look for a wide open town and no restraint upon those who for profit desecrate the Sabbath and violate all laws. It is an insult to the members of the general council even to assume that they are to receive their instructions from such a questionable source as the Paducah Sun, yet that paper speaks of "We" and "Us."

It boasts of the progressive spirit of the former republican council, when the records show that they were most liberal with public grants and favors to corporations whom we are told furnished the money to elect them. One dose of that gang was enough for the people of Paducah and every single one of them was defeated at the next election.

The present board went into office under entirely different conditions. The people desired a change and the independent democrats of Paducah wrought the change, but if the Sun gang is to put its bill in they will get the cold shoulder in the future, but until we have some evidence on that score we will not yet class that body of men with the Sun gang which at this time is championing the cause of one of the most insolvent corporations that ever did business in Paducah. Only a few weeks ago the Sun was full of much silly rot about the general council going to ignore the election of the subordinate officers, and elect a new set, forcing those elected in December to go into the courts for their rights, but it seems that the new general council has more brains than the Sun and for that very reason it would be a reflection on that body for the Sun to speak for it authoritatively.

In so far as the mayor's recommendations are concerned, it is but fight and proper that the attention of the general council be called to every needed improvement whether there be funds for that purpose or not. Those recommendations are merely for the consideration of the legislative body, and if they find it impossible to carry them out, no injury is done. The mayor has nothing to do with the matter further than to suggest and to execute what may be adopted by the boards. We have said, and still say, too much money has been paid in salaries, and that retrenchments should be made, yet we understood that the finances of the city are in very good shape. The city, outside of its bonded indebtedness, owes about \$7,600, of which amount \$3,100 is for additional improvements on the hospital and the balance for the cemetery land and library lot. With something like \$5,000 due from the railroads for 1905 taxes and other delinquents the account would be about square.

The trouble with Paducah for the past 20 years has been that there are too many tax-dodgers and consequently the valuation is too low, or rather the merchants and moving property are not taxed like

they should be. For city purposes the valuation should reach at least \$12,000,000 instead of \$9,000,000. This is an evil that should receive prompt and vigorous attention. If it does, then the burden of taxation will be more equal, the tax rate lower and still give sufficient revenue to make improvements needed to make Paducah a city. Get right down at the root of the evil, give every man a square deal and require him to act square in listing his possessions. A strict enforcement of the law, not only against Sunday saloons, immoral resorts and the criminal classes, but against every man and corporation who does not obey them is what Paducah needs.

While the Sun professes to speak for the general council, it will not be long before it may have "reasons" to change its attitude, for we have been informed that the corporations of Paducah will not find the present body as subservient to their wishes as has been the case in former years, and when things come to an issue between the people and the corporations we expect to find the Sun where it has always been—on the side of the corporations—a place it sticks to, either for love or money—we don't know which.

The Register notes—and with much regret—that notwithstanding many reform laws—laws which aim to improve those among the statutes which need remedying—have been introduced right at the outset of the legislature that the election laws have been completely ignored. Can it be that the legislature intends to ignore the laws which are a disgrace to the state and the manufacturer yearly of more thieves in the sight of justice than can be found in the state's two prisons? While it looks that way The Register hopes looks in another instance deceives it.

Rev. Emil G. Hirsch, of Chicago, taking the average rough of his home place as a model, no doubt, says: "Man is much the same as he was a thousand years ago. The same elemental passions, ambitions and appetites obtain. They are the same as those of the animals." The Rev. Emil G. would wince if called a slanderer and yet—well—he should Hirsch up if he cannot be more charitable or fairer.

Has any one gone from Kentucky to Colorado to close the mouth of the fellow who a few days since was declaring he could tell who killed Goebel? There has been no announcement of the man's death, but he has ceased talking just as if he was a clam out of his elements.

It is clearly settled that when the next state democratic committee is chosen the kinks will be taken from the hair and hopes of at least one false leader. The irons which are to straighten his hair and send him to the back seat of public oblivion have been placed in the fires.

Evidently the Louisville Herald hasn't any fear of Jack Chinn's knife. It says: "Gen. Bingham, the new head of the New York police department, speaks of the 'nine gods of war.' Had he known Jack Chinn he would have made it ten—but ten demons, not gods."

SEEMS ON BRINK OF CIVIL WAR.

Vienna, Jan. 5.—The North German Lloyd and Hamburg-American lines are negotiating with the Adriatic and Cunard companies for the creation of a Hungarian line from Fiume to the United States. If the negotiations should not prove successful Hungary threatens to prevent the transportation of her immigrants to German ports.

The gendarmes are attempting to disperse the Roumanian peasants in Hungary. Intense irritation prevails at the employment of the gendarmes and the country seems on the brink of civil war.

DRUMMERS' MEET. The Traveling Men's Clubs Holds Gathering This Evening.

This evening the Paducah Traveling Men's club will hold a meeting at the grill room in the Palmer and quite a large attendance will be on hand, as many of the knights of the grip are in the city.

Their club rooms above the Commercial club quarters on Legal Row are nearly ready for their occupancy, and some time next week the committee selected to buy furnishings expects to commence installing the equipment therein. They will be very swell rooms.

FEW GRUMBLERS

ALL REASONABLE PEOPLE SATISFIED WITH NEW WATER RATES.

Eight Out of Every Ten Consumers Have Received Reduction, While Others Do Not Kick.

The rush is now on at the office of Superintendent Muscoe Burnett, of the water works office, as everybody is paying their quarterly water rents and the office is an unusually active place at all hours of the day.

When asked yesterday what expressions were being heard from the people regarding the raises and decreases made in the water rates, Mr. Burnett said that ninety-five per cent of the people seemed well pleased while once in a while a scarce grumbler would turn up, as it was through force of habit that he would not quit kicking.

The superintendent continued that eight out of ten people got their rates reduced and they of course were satisfied, while nearly everyone of those whose charges were raised readily understood how it was, with just a little explanation. They were plainly shown where heretofore they were charged entirely too small a figure, when compared to persons using much less water and occupying much smaller buildings.

The new light and water committees of the council and aldermen have now been appointed by the presidents and this sub-body will at once arrange for a meeting with Superintendent Burnett, of the company, to go over the rates and see that the revision is all right. The committee will then report to the full legislative boards and thereby give official public sanction to the changes made in the new schedule.

The sensational breach of promise and seduction case of Miss Lola Walker, of Chicago, vs. D. A. Edwards, of Union City, Tenn., was continued Wednesday on motion of the defense.

HOSPITAL BOARD

TWO NEW MEMBERS BY VIRTUE OF INCOMING OFFICIALS.

The Institution Is Not Only Self-sustaining, but Source of Revenue to City.

By virtue of being elected president of the board of aldermen Mr. Oscar B. Starks is also a member of the board of directors for Riverside hospital, the president of each public legislative body, Mayor Yeiser and two outside physicians composing the directorate. Now that the new legislative authorities have all taken their seats and elected their presidents, it seems that the hospital board of directors now consists of President Starks, of the aldermen; President McBroom, of the council; Mayor Yeiser and Drs. Jeff Robertson and Frank Boyd, the two latter being the physicians put on the board when the institution opened last summer. By virtue of Messrs. Starks and McBroom taking the places of former Presidents George Ingram and Dick Davis this does not mean that any changes in the directors' officers will occur, as Mayor Yeiser is president and Dr. Boyd secretary.

There has been awarded to Contractor William Lockwood the work of converting the hospital basement into wards for the colored sick exclusively, and he starts immediately to perform the task. It will take several weeks to make the new wards. The hospital is not only self-sustaining, but is a good source of revenue for the municipality over and above running expenses. Last month from private patients alone there was received over \$500, and this is much in excess of the expenses.

Everything Bought by Bid So Public Will Get Benefit of Competitive Prices.

Mr. W. T. Miller yesterday was preparing to bring in his ordinance for the aldermanic and mania boards to adopt, establishing a purchasing agent for this and thereby stop the wholesale done by persons connected with each department, who then send their bills which have always been with a flagrant promiscuity.

Mr. Miller wants the mayor and aldermen of upper and lower board to compose the purchasing body, and everything used by the entire city to be bought through them. Where a large bill is used, in quantities sufficiently large, he wants it bought by the city, and the purchasing board take proposals. Of the Member Miller does not want so close fisted but what the of the departments can be paid to buy this little thing or that in case of emergency, but he is some system that has never existed in this city, where just and everybody has been buying when sending in their bills.

Miller is on the finance committee, and the first meeting held by the body after he went into the the others commence reading the names and amount of bills against the city. Mr. Miller has this right quick and made produce the bills, properly certified, for every account to be upon. The mayor and others think this had never been red before, such a close scrutiny, but Mr. Miller will see that done hereafter.

BADLY BITTEN

DOG WENT ON RAMPAGE DOWN ABOUT HARDIN.

James Warren Brought Little Girl Here to Have Madstone Applied to Wounds.

Mr. James Warren of near Dexter, arrived here last evening with little 13-year-old girl Eulah, who badly bit the day before by a dog while the little one was riding four miles East of Hardin.

Mr. Warren brought the girl up and got the madstone of Mr. Frank Mantz which he placed to the wounds to draw the poison therefrom.

The little girl had started from the near Hardin where she was riding, up the country road in company with another young person, when a Scotch shepherd dog came along, frothing at the mouth very mad. The animal leaped towards the Warren child, and sank its teeth into her lower limbs. The child tried to beat the brute off but kept biting and tearing the skin. The other child attempted to knock it away but the mad canine continued biting the little one over its lower limbs until the flesh was lacerated and torn very badly.

The dog ran on down the road and was shot in the side by a farmer with his gun, but this did not end its instance. Finally it tackled the wheels of another farmer coming along the highway, and sank its teeth into the throat of the animal. The driver fortunately had an axe lying in the bed of his wagon and grabbing the dog, leaped to the ground and there with one well directed blow killed the brute.

The little Warren girl was taken home and then brought on here. She had to be carried, her injuries preventing her from walking, and she had her father are now at the Bud Charles hotel near the Union depot, applying the stone to the wounds.

The deputy sheriff who officiated at the hanging of Mary Rogers, says he is being held up to derision and persecution by the people for doing his official duty. His family is about to be ostracised and he will have to leave town.

SCHOOL REPORT

MAYOR YEISER SAYS THAT NO HARM CAN BE DONE.

Trustees Putting Up Fight Against Proposed Amendment and Believe They Will Win.

Mayor Yeiser yesterday stated that he favored the second class charter amendment that is to go before the state legislature, compelling the school boards of second class cities to furnish monthly reports to the municipal legislative authorities showing how much money the trustees spent during that month and their receipts; in fact a full financial statement of the schools. The mayor bases his advocacy alone on the idea that it would occasion no harm to have the report made monthly.

Never before have school boards of second class cities been required to make reports of their expenditures and receipts to the legislative authorities of that city. The school trustees and legislative boards of Lexington are at "outs" and that city's legislative officials want to compel the trustees to report as to their finances regularly. Of course the trustees refused, and now when there was held at Lexington several weeks ago the conference between representatives of second class cities for purpose of deciding what amendments they wanted the state legislature to make to the governing charter, the Lexington officials asked the conference to sanction an amendment compelling the monthly school report. Having no interest in the matter, Mayor Yeiser and the others of the Paducah delegation approved this idea, in order to get the support of Lexington and the other cities to amendments that the Paducahans wanted.

Now the school boards, including that of Paducah, and all other second class cities, are laying protesting petitions, which they think is unprecedented and uncalled for, and that all the schools of this class of cities should not be held responsible for a petty fight existing between the trustees and legislative boards of Lexington. The trustees here state they are selected by the people, have supreme control of the schools, and do not intend making any report, as it is none of the business of the mayor or legislative authorities what they do with their money. The trustees think they will have very little trouble in defeating the proposed amendment.

NOBLE DEED

MRS. WILLIAMS' HOME BEING REBUILT AND FURNISHED BY FRIENDS.

Fire Destroyed Same About Christmas, but Chief Collins and Others Are Looking After Things.

Chief James Collins and others of the police force are now performing a most noble deed which does not come within the required duty of their official position. It is that of raising funds to rebuild the home of Mrs. Williams near Fifth and Trimble streets.

About Christmas fire destroyed the two-room house and contents of the poor widow and her 13-year-old daughter. She has since been cared for at the Home of the Friendless, and now Chief Collins and others have gotten lumber, nails and other material donated them, while what could not be procured by gift was bought, and they are rebuilding her little home. Furnishings are also being secured for her and the good work is being helped by everybody.

Mrs. Williams is a most estimable and good woman, who is just one of the unfortunates not endowed with much of this world's goods. The little home and contents were all that she had on earth. She is offered a good home at the Home of the Friendless, but prefers to be with her little girl in their home, therefore the chief and others are seeing that it is rebuilt.

They have procured donations of a stove, carpets, furniture and everything needed, and it is unnecessary to state that the lady is very thankful to them all.

Property Sold.

Property lying on Madison street has been sold by Martha Bryant to Milas F. Bryant, for \$5, and other considerations, and the deed was lodged for record yesterday with the county clerk.

Land out in the county was sold by Mark Smith to C. M. Ross for \$100.

Mrs. Manie Cobb transferred to DuBois & Kolb, for \$1 and other considerations, three and one half feet of ground beside the Empire flat building on Broadway near Seventh street. As long as Mrs. Cobb owns the property adjoining she is to have the free use of the three and one half feet as a public passageway for herself.

W. F. Padgett bought from Gip Husbands for \$150, property on Kincaid street.

The county clerk yesterday issued a wedding license to Rubie Synder, aged 32 and Julia Ross, aged 39 of this city.

KILLED BY TRAIN

JOE WRIGHT MET A HERO'S DEATH YESTERDAY AFTERNOON.

Others of Crew Deserted Handcar While He Met Death in Saving Train From Wreck.

Yesterday afternoon a section hand named Joseph Wright was killed between Greenville and Central City by the Illinois Central passenger train which reached this city at 6:40 o'clock last evening. The train is due here at 6:10 o'clock, but was delayed thirty minutes on account of the accident.

Wright was employed upon the section gang working around Central City and Greenville. There is a big curve in the road between those cities and yesterday afternoon the section men were going along the track upon their handcar when they heard the fast flying passenger train coming around the bend behind them. All leaped from and deserted the car except Wright, who remained at his post of duty and was trying to get the car off the track so as to prevent wrecking the train. The handcars are very heavy and one man can hardly handle same, but Wright had it about half way off the track when the engine of the passenger struck it. The blow of the engine knocked the hand car over with Wright under it. He was nearly buried in the ground by the weight of the affair and blow.

The engineer quickly stopped his train and when the crew went back they found Wright dead, every bone in his body having been broken by the car falling on him. His remains were picked up and wrapped in a sheet and brought to Central City.

The collision broke the pilot of the engine and this had to be chained up until the engine got here for repairs. Wright had not been working around there on the section but several weeks and was a man of about thirty-five years of age.

He deserves great credit for sticking to his post, as all the others of the section gang deserted the handcar in efforts to save their lives. While Wright went down to a hero's death on trying to prevent the wreck of the passenger train and probable death and injury to the passengers.

THE SCHOOLS

PRESIDENT WILLIAMSON IS NOW OUTLINING THE COMMITTEES.

Debating Club Held Interesting Gathering Last Evening At Supt. Lieb's Office.

President Harry F. Williamson of the school board, yesterday stated that he was now working upon the list of his committees, and would have them finished by today or tomorrow. They are the committees for the board for this year, and their selection is made necessary on account of the beginning of the new year, as each January those serving for the preceding year go out of existence.

Debate Last Night.

Last evening at the office of Supt. Lieb, in the high school building, the members of the Debating club of the high school held a most interesting session, during which time many spoke upon the debatable propositions they had before them. This club is proving quite an excellent factor in the education of the rising generation, as the boys are developing into first class orators.

Month's Attendance.

Today Supt. Lieb has turned over to him the reports from each room in the city, and he can then ascertain the average attendance since the holidays. He has entered many new pupils for the last half of the term which commences shortly, while many more are expected to come in.

LONGEST REPORT

MASTER COMMISSIONER REED
HAS BIG DOCUMENT
TO FILE.

Judge Reed Too Weak to Again At-
tempt Anything Yesterday—Jury
Gave \$1,000 Verdict.

Master Commissioner Cecil Reed
yesterday stated that he believed he
would have completed by week after
next his report of the liabilities and
assets of the People's Home Pur-
chasing company. He finds hun-
dreds of claims against the company,
but not much in the asset line. The
volume of bills coming in are causing
him much work, and the document
will be the longest master commis-
sioner's report, upon one case ever
filed in the local circuit court for
years. He and his stenographer are
putting in every spare moment work-
ing on the document.

Judge Still Sick.
The strenuous exertion of Thurs-
day rendered Judge Reed so weak
that yesterday he was unable to be
on the bench being confined to his
bed. In his anxiety to get as much
work done Thursday as possible he
overworked himself and was very
feeble yesterday. He will probably
remain abed today also and rest to-
morrow, so as to be alright, if pos-
sible, by Monday, which time he em-
panels the petit jury and starts into
trial of the many cases before him.

Sued On Note.

Yesterday there was filed in the
circuit court a suit of R. A. Hale
against James Lally and George
Nolte for \$100, claimed due upon a
note defendants executed to plaintiff
for that sum, and which note was
dated August 22nd, 1902, and made
payable in three months. The note
was given while defendants were en-
gaged in the pottery business at
Mayfield.

Got \$1,000 Damages.

Judge Richard Lightfoot and Hon.
Hal S. Corbett have returned from
Wickliffe where they won their suit
of Lula Warford against Dr. S. M.
Dorris, by getting \$1,000 damages.
The jury returned the verdict yester-
day at noon, after having the case
since the night before.

Miss Warford broke her right arm
above the wrist, and in setting same
Dr. Dorris did so in such a manner
that it was crooked when properly
knitted back together. Lawyers
Corbett and Lightfoot sued for \$10,-
000 against Dr. Dorris for Miss War-
ford, and got the judgment for \$1,000.
Dr. Phil Stewart, Dr. Horace
Rivers of here and a number of other
physicians were there testifying in
behalf of the defendant.

NEW MAIL AGENT

J. M. COCHRAN TAKES PLACE
OUT OF HERE—OVER N. C.
& ST. L.

Fireman Louis Feeny Yesterday Left
the Railroad Hospital—Grayson
Regained Consciousness.

Mr. J. M. Cochran, of Greenfield,
Tenn., has taken the position of as-
sistant mail agent on the N. C. &
St. L. railroad between this city and
Jackson, Tenn. The mail business on
trains going out of here is so heavy
that the regular agents cannot han-
dle them by themselves, so they are
given an assistant in person of Mr.
Cochran. He leaves here in the
morning on the 7 o'clock outgoing
passenger and gets off at Jackson,
Tenn. Then in the evening he re-
turns here with the incoming agent.
The following morning he goes out
again and comes back that night. Mr.
Cochran takes the place of Mr.
Oliver, who was transferred to the
regular position between Hickman
and Nashville.

Left Hospital.
Yesterday Fireman Louis Feeny
left the Illinois Central railroad hospi-
tal for his residence here, after hav-
ing remained in that institution for
many weeks, as result of his middle
toe being amputated. He is gradu-
ally getting well and will shortly be
able to resume his position upon the
railroad.

He is a brother of Traveling En-
gineer F. J. Feeny and runs out of
Chicago. Six months ago he got his
foot injured in such a manner that
the toe had to be amputated. He was
brought here for the amputation, in
the local hospital, but will shortly
go back to his home in the Windy
City.

Regained Consciousness.
Yesterday Calvin Grayson, colored,
regained consciousness at the rail-
road hospital, and the doctors believe
that he will get well. He is the sec-
tion hand struck by the train last
week at Millington. He was brought
here unconscious, with the side of
his face caved in. The doctors had
to take much of the crushed bone out,
and, in doing so some of Grayson's
brains spilled out. He has since the
operation lain senseless, but yester-
day regained his faculties.

PRINCESS AS A HOUSEWIFE

She of Wales Knits Husband's Socks
and Sees That He Wears
Them.

Like her mother before her, the
princess of Wales is a first rate house-
keeper, and though she is a very busy
woman socially, there are but a few
things in the management of her
household which she does not under-
stand and many which she personally
superintends.

The princess has no liking for sit-
ting with idle hands, and she is never
without some sort of needlework. She
not only knits the prince of Wales
socks, but sees that he wears them.
Once, for instance, when the prince,
after a long day's shooting, returned
home tired and wet, the princess was
having her tea and the sportsmen
were all quite ready for their, but-
careful wife that she is—the princess
would not give her husband any until
he had changed his wet boots and
stockings, and he, though laughing and
protesting, had to do her bidding.

The princess is an excellent mother,
and both she and the prince are very
anxious that their children should be
brought up on the simplest lines pos-
sible. When they are at York cottage
they have their little ones with them a
great deal, says Home Notes.

Formerly the hall was constantly
used by the small princes. One day,
however, a visitor fell over a hoop be-
longing to Prince Edward, and now
the children have a special play room
of their own.

SENSE OF THE TURTLE.

Reptile Possesses Remarkable In-
stinct for Finding Nest-
ing Ground.

During the summer months, from
May to August, the big sea turtle
lay their eggs in the beach. They
come possibly hundreds of miles, and
if undisturbed, will land within a few
yards of the same place year after
year, says Forest and Stream. They
crawl up the beach in the night and
make their nest in the sand just above
high water mark. I have watched
them from behind a sandhill, but a few
feet away.

They dig the hole with their hind
flippers, and after covering it over,
first filling it with eggs, they will go
a few feet and make another place, I
always thought as a blind, for one
looks just like the other. They lay
each month usually during the high
tides of that month, beginning in May
and ending in August, from 90 to 185
eggs.

During the summer I found and
brought into camp 2,755 eggs. I put
some in the sand near our camp and
in 27 days the top eggs hatched, the
rest in three days more. The little
turtles would dig out, raise their lit-
tle heads and sniff the air a moment,
then start for the river, 100 yards
away. It was always a mystery to me
how a turtle could find the same place
on the shore. When a short distance
out at sea it all looks alike—just sandy
ridges, with scrub palmetto and coarse
grass.

HIGH LIFE IN TOMSK.

Siberian City That Comes Near to
Being Worth a Few Days
Sojourn.

Tomsk, Siberia, is not such a dread-
ful place. A traveler writes of it:
"After leaving the governor we paid a
visit to the shops of Tomsk in order to
complete our outfit. We were able to
buy apples newly arrived from the Cau-
casus, tea from China—only 400 miles
away, and brought by a sledge or
drosky by the overland trade routes
first opened by Peter the Great—and
many kinds of goods from Germany,
such as kodaks, photographic material
and all kinds of up-to-date articles."

"We also paid a visit to a barber,
who could compare favorably with one
of the first-class barbers in the west
end of London, and was quite as dear,
charging us a shilling for a shave and
a haircut. I was in every way very fa-
vorably impressed by the town. With a
population of about 50,000, it is as
rich in churches and public buildings
as any English or American town with
five times the number of inhabitants."
Moreover the Tomsk university is
an imposing building and contains two
faculties—those of medicine and law.
This capital, in fact, takes the third
place in educational importance in the
empire.

Bark of Sequoias.

California's giant trees, the sequoias,
thousands of years old, have been pre-
served to this day because of their
enormously thick bark. From time to
time, in the course of ages, forest
fires have swept through the big tree
lands, destroying everything, yet only
scorching for a couple of inches depth
or so the almost fireproof bark. The
flames having carbonized that much of
the bark, could not penetrate farther,
for the carbonized portion formed an
absolutely fireproof covering for the
remainder of the interior bark.
